THEY “GOT” IT ALREADY IN 1992: DUBLIN PRINCIPLES, THE RIO PRINCIPLES, BEIJING PLAN FOR ACTION, CEDAW

Principle 3: Women play a central role in the supply, management and safeguarding of water

key role in water management
a place at the decision-making table
6.1.1 DRINKING WATER

2.2 billion people lacked safely managed drinking water services in 2017

Globally, the current rate of progress needs to be quadrupled

6.2.1a SANITATION

4.2 billion people lacked safely managed sanitation services, and 673 million people practised open defecation, in 2017

55% of the world's population

Globally, the current rate of progress needs to be quadrupled

6.2.1b HYGIENE

3 billion people lacked a basic handwashing facility with soap and water at home in 2017

40% of the world's population
6 Clean Water and Sanitation

WATER is a Human Right

5 Gender Equality

Women for Water Partnership
GOVERNANCE: DECISION-MAKING LEADERSHIP

Decision making:
40-40-20 principle

Leadership:
Women’s leadership, performance rates increase incredibly
